Statista GmbH

Job-Titel: Junior Researcher South Korea (m/f/d)

Job-Beschreibung
Statista is one of the world’s leading statistics portals.

As a multiple award-winning innovative digital company, Statista provides customers such as Google, Bloomberg, Forbes, Procter & Gamble, or Porsche with high-quality research & analysis, data intelligence, and content marketing products and services.

With 850 employees from more than 57 different nations and offices in Hamburg, New York, London, Singapore, and Paris, Statista draws its great innovative power from its internationality and diversity.

Statista provides a company culture based on learning by doing and entrepreneurship, offers great career opportunities, and combines the pioneering spirit of a start-up with the stability of an established company.

Your Team
In our Editorial Research Intelligence Department, more than 120 researchers work on the statistics and topic pages for our different national platforms. Each day, while focusing on their specific fields, our experts research and prepare new data from the world’s most significant sources for our platforms: https://www.statista.com/.

Your Tasks
- Conducting data research on key industries with a regional focus on South Korea
- Creating online statistical content covering the leading industries on the South Korean market
- Developing in-depth knowledge on current socioeconomic and industrial topics
- Processing, archiving and publishing data in English via the statista.com platform, following Statista’s editorial style
- Managing web content using Statista’s own content management system (CMS)
- Monitoring data usage and keeping the database up-to-date

Your Profile
- Successful completion of undergraduate studies
- Exceptional written and spoken English skills; first editorial experience in English (Please send us a Cover Letter in English)
- Good written and spoken Korean skills
- General knowledge of South Korea and the South Korean market
- Ability to describe complicated data in a concise and comprehensible manner
- Structured, organized and independent working style with attention to quality, detail and accuracy

Your Benefits
- Possibility to deepen your knowledge of an industry that matches your interests - and to become an expert
- High level of autonomy
- Great opportunities for personal growth and responsibility
- Opportunity to grow quickly into mentor and/or leadership role
- Trainings in professional tools as well as languages
- Statista University - extensive training offer and individual coaching
- Dynamic, international team
- A team-oriented transfer of know-how
- Social events to meet new people and integrate within the team
- Free beverages, fruit and sweets
- Located directly within Hamburg’s city center
- HVV Profi Card
