Statista GmbH

Job-Titel:
Student Assistant Editorial Research Department Finland (m/f/d)

Job-Beschreibung
Statista is one of the world’s leading statistics portals.

As a multiple award-winning innovative digital company, Statista provides customers such as Google, Bloomberg, Forbes, Procter & Gamble, or Porsche with high-quality research & analysis, data intelligence, and content marketing products and services.

With 800 employees from more than 57 different nations and offices in Hamburg, New York, London, Singapore, and Paris, Statista draws its great innovative power from its internationality and diversity.

Statista provides a company culture based around learning by doing and entrepreneurship, offers great career opportunities, and combines the pioneering spirit of a start-up with the stability of an established company.

Your Team
In our Editorial Research Intelligence Department, more than 120 researchers work on the statistics and topic pages for our different national platforms. Each day, while focusing on their specific fields, our experts research and prepare new data from the world’s most significant sources for our platforms: https://www.statista.com/.

Your Tasks
• Assisting our editors in creating online statistical content, covering key industries within a variety of regional focuses
• Processing and publishing data and editorial texts in English for the Statista.com platform, following our editorial style
• Translation from Finnish to English
• Managing web content using Statista’s own content management system (CMS)
• Developing a better understanding of data and quantitative research, as well as gaining
• SEO-optimized writing skills, in order to produce text with a statistical focus

Anforderungsprofil

Your Profile
• Enrolled as a full-time student – bachelor’s or master’s programs (this condition is mandatory)
• Exceptional written and spoken English and Finnish
• Ability to describe complicated data in a concise and understandable manner, displaying attention to quality and accuracy
• Prior writing experience (please send us samples!) and interest in developing in this area
• Reliable, independent and structured working style

Your Benefits
• High level of autonomy
• Great opportunities for personal growth and responsibility
• Statista University - extensive training offer and individual coaching
• Extensive offer in the field of health promotion
• Dynamic, international team
• A team-oriented transfer of know-how
• Located directly within Hamburg’s city center
